## Zhejiang Business Technology Institute

Founded in 1914, Zhejiang Business Technology Institute (ZBTI) (Chinese name: 浙江工商职业技术学院) has the distinction of being one of the first four full-time public higher vocational colleges approved by the Zhejiang Provincial People's Government. The college's main campus is located in Ningbo, an established commercial and international port city in China's Zhejiang province. With convenient transportation (15 minutes by car to the city's centre, 10 minutes by car to Ningbo railway station, 15 minutes by car to Ningbo Lishe International airport, and 7 minutes by car to Line 1 of Ningbo's subway system), the campus is ideally situated in Ningbo's Haishu district.

We serve more than 12,000 full-time students and more than 5,500 adult students. There are 623 faculty members and 438 full-time teachers, 87.44% of which are "dual-professional" teachers, including 170 teachers with Associate Professor and above titles, and 325 teachers with a Master's degree or above. We welcome students from all countries and cultures. We have had over 200 overseas students from more than 20 countries.

Besides Chinese course, Zhejiang Business Technology Institute offers opportunity for international students to join the Sino-Australia Cooperative Programs with Holmesglen. Courses are taught in English and to the same high standards as Holmesglen in Australia, with many academic staff being seconded from Australia to Ningbo, which allows you to graduate with a Holmesglen Diploma after you finish one and a half years courses in ZBTI. We believe the education will be an incredibly valuable asset on your CV.

## Attending Free Training opportunities

ZBTI offers a number of opportunities for students to spend time attending E-Commerce Training, Chinese Tea Art Training, Chinese Kongfu Training, etc. All these training are totally free to all international students.

## Chinese Course

The Chinese Language courses consist of four levels including the Elementary, the Intermediate the Upper-Intermediate and the Advanced. Each level requires a learning period of 1 or 2 semesters. With a flexible system, the program allows international students to apply for the corresponding level of courses according to their Chinese language proficiency.

Courses are designed to help international students to learn the Chinese language knowledge and develop their Chinese communication skills, as well as acquiring basic Chinese culture knowledge and to help them to pass HSK and further their major study.

Courses	Time	Objective
Elementary	One semester	Students reach level-2 of HSK; Students can have a basic communication on daily topics.
Intermediate	One semester	Students reach level-3 or level-4 of HSK and can have a fluent communication on wider topics; Students reach level-4 of HSK and can apply for undergraduate programs of science and technology offered by Chinese universities.
Upper-Intermediate	Two semesters	Students reach level-5 of HSK ; Students can read Chinese papers and magazines, watch Chinese movies and TV programs, and make a complete speech in Chinese; Students can apply for most undergraduate and graduate programs of arts offered by Chinese universities
Advanced	Two semesters	Students reach level-6 of HSK; Students can easily understand Chinese by listening and reading, express themselves fluently both by speaking and writing, and apply for all the undergraduate and graduate programs offered by Chinese universities.

## Diploma Courses

- ◆ Sino-Australia Cooperative Programs of International Business
- ◆ Sino-Australia Cooperative Programs of Accounting

These two programs adopt Holmesglen courses and teaching materials and small-sized class mode, together with several core courses of the same majors of ZBTI, to achieve the same standard of teaching quality as in Holmesglen. The program offers diploma from Holmesglen for international students.

## Career prospective

Most of our language students leave with HSK level certificates; Sino-Australia Cooperative Programs' students get the diploma. Our graduates have been accepted by many excellent universities in China for their further study, and some of them get jobs in local companies directly.

## Minimum entry requirements

- ◆ Full 18 years old
- ◆ Physically and mentally healthy
- ◆ No criminal record

Some programmes might have different requirements and you are suggested to follow our official website for the most updated information: [www.zjbti.net.cn](http://www.zjbti.net.cn) ; [eng.zbti.edu.cn](http://eng.zbti.edu.cn) or send us emails: [gjhzc@zjbti.net.cn](mailto:gjhzc@zjbti.net.cn)
